

Technical drawing of a drainage structure cross-section. The structure is shown in profile, with dimensions and components labeled. The total width is 30 (15 + 15). The total height is 50. The structure consists of a base (10) and a side wall (8). The top surface is sloped at 1%. The structure is divided into three vertical sections: a top section (1) with a height of 8, a middle section (2) with a height of 20, and a bottom section (3) with a height of 20. The bottom section (3) is filled with a material (4) and has a sloped side wall (5). The top section (1) has a sloped top surface (6) and a sloped side wall (7). The middle section (2) has a sloped side wall (9). The bottom section (3) has a sloped side wall (5) and a sloped top surface (10). The dimensions are: 15, 15, 8, 20, 20, 50, 1%, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

[illegible]

Technical drawing of a cross-section of a composite material structure. The drawing shows a layered structure with the following dimensions and labels:

- Overall Dimensions:**
 - Top horizontal dimension: 50 (total), 20 (left section), 30 (right section).
 - Right vertical dimension: 27 (total), 15 (bottom section), 12 (top section).
- Labels and Features:**
 - 1:** Points to the top layer (hatched with diagonal lines).
 - 2:** Points to the middle layer (hatched with diagonal lines).
 - 3:** Points to the bottom layer (hatched with a wavy pattern).
 - 4:** Points to the bottom layer (hatched with a wavy pattern).
 - 5:** Points to the dashed line on the left.
 - 6:** Points to the bottom layer (hatched with a wavy pattern).
 - 7:** Points to the top layer (hatched with diagonal lines).
 - 8:** Points to the top layer (hatched with diagonal lines).
 - 9:** Points to the top layer (hatched with diagonal lines).
