	<i>Behaviorment of concrete blocks according to the drawing K-09</i>
	<i>Behaviorment of concrete blocks according to the drawing K-09</i>
	<i>Behaviorment of concrete blocks according to the drawing K-09</i>
	<i>Behaviorment of concrete blocks according to the drawing K-09</i>
	<i>Behaviorment of concrete blocks according to the drawing K-09</i>

1. Wykonać i złożyć opisanemu na dole w załączniku rozdzielenie wydzielić z projektem.

3. Projekt rozpatrywać łącznie z opisem technicznym.

6. Wszelkie użycie materiałów budowlanych i urządzeń musi być posiadanych materiałów stosowanych w obiekcie.

budownictwie oraz zezwalające na ich zastosowanie w odpowiednich systemach.

określenie wymoganych parametrów technicznych lub standardów jakościowych. Oznacza to, że w przypadku wskazanych z nazwy

materialu (wyrobów) nie gorszej jakości niż opisane. Ciepłota udowodnienia, że materiał (wyrob) jest równoważny w stosunku do wyrobu

8. Linie wykładowe podobno w chemiometryczn d rżone w metodn w odniesieniu do poziomu wykończonej posadzki na danej kondygnacji.

Noninvasive monitoring of pulmonary perfusion

2. The contractor is obliged to perform inter-professional coordination on the construction site.

4. All construction works should be carried out in accordance with description.

5. Carry out construction works in accordance with the instructions of the manufacturers of materials used in the facility.

approvals and certificates allowing their use in construction and authorizing their use in appropriate systems.

specifying the required technical parameters or quality standards, this means that in the case of the materials and products indicated by

quantity and those described, the burden of proving that the material (product) is equivalent to the product specified in the design rests with

or, otherwise, may be given in comments and elevations in relation to the level of the finished floor on a finish floor.
