NIP: 782-006-94-31

Subject: Milena – tender Polish Army – IR zippers

Kortrijk, 10-09-2021

Dear Mr. Arkadiusz Razik,

We confirm that we are not able to produce zippers according to the specification relative to IRR requirements for the colours according to NO-84-A203:2004/2020 within a time-frame of 45 days.

For development, testing and certification of new IRR treated colours according to new parameters, we often require 2 months. Further note that the tests not only proceed on level of colour, but have to be remade on each style of zip, if various styles are requested.

We further remain at your disposal if requiring any additional information.  
Best regards,

**KROKO FASTENERS NV**
