Puristeril 340
EN 14348
Mycobactericidal activity

J U D G E M E N T

After testing the disinfectant **Puristeril 340** according to EN 14348 I give the following statement of the results out of the test report dated 2014-11-07 (SN 17700 II):

According to EN 14348, the batch VER 05200 of the product **Puristeril 340** possesses a mycobactericidal activity under clean conditions (0.3g/l bovine albumine) at 20°C in 10 minutes when diluted at 3.0% (v/v) in water of standardised hardness against the test strains *Mycobacterium avium* and *Mycobacterium terrae*.
