

## **Declaration of compatibility with disinfectants**

Detergents **Medizyme® Foam**, **Medizyme® 3Plus** and **Medizyme® 5Plus**, are respectively designed for the routine and corrective cleaning of medical devices such as endoscopes and surgical instruments. They are:

- pH neutral
- enzymatic
- bacteriostatic

Their compatibility with other detergents and disinfectants commonly used for the reprocessing of endoscopes as well as with materials used to build endoscopes has been thoroughly tested according to the European legislation for Medical Devices. Adverse reactions following the mixing of Medizyme detergents with other detergents and disinfectants are unlikely to occur.

In particular, the compatibility of Medizyme detergents with disinfectants based on peracetic acid, hydrogen peroxide, glutaraldehyde or any combination thereof is certified by OneLife S.A. **Medizyme® Foam**, **Medizyme® 3Plus** and **Medizyme® 5Plus** are compatible with Christeysn's products Phago'scope APA and Phagocide D.
