

# Certificate of Analysis

Becton Dickinson and Company  
BD Diagnostic Systems  
PO Box 999  
Sparks MD 21152-0999 US

Page: 1 of 2

**Product Name** : Bactec Fos Media  
**Catalog Number** : 442153 **Manufacture Date**: 2024/08/26  
**Batch Number** : 4235104  
**Expiration Date** : 2025/06/24

satisfactory results with the following:

Microbial Contamination: Representative samples of these components were tested for microbial viability or the Fo value for parametric release was examined and found to be acceptable.

pH: 4.5 ± 0.5 (after reconstituting)

Biological Performance: Satisfactory Growth  
Haemophilus influenzae ATCC® 10211  
Neisseria meningitides ATCC® 13090

| Animal source | Country of Origin | Tissue Category |     |     |
|---------------|-------------------|-----------------|-----|-----|
|               |                   | BIC             | SIC | ABC |
| Bovine        | Australia         | IV              | IV  | IB  |
| Bovine        | New Zealand       | IV              | IV  | IB  |
| Porcine       | China             | IV              | IV  | IB  |

The Batch Number on this certificate is synonymous with the Lot Number shown on the product label.

BD Diagnostics - Diagnostic Systems products are manufactured in ISO 13485:2016 Registered facilities. In addition, BD Diagnostics - Diagnostic Systems facilities are registered with the United States Food and Drug Administration (FDA), and are regulated by the FDA's Quality System Regulations (QSRs). This product met BDDS stringent quality standards at time of batch/lot release. Any test results reported on this certificate were obtained at time of release. This material is not for human or animal consumption.

BD Diagnostics - Diagnostic Systems' Certificates of Analysis (COA) typically contain animal origin information when products are manufactured using materials of animal origin. This information may be contained in the animal source table and/or in one or more of the additional paragraphs found on the COA. Following Quality Control release, the COA is created and published at [www.bd.com/regdocs](http://www.bd.com/regdocs). For each batch of finished product that contains animal origin raw materials, the COA shows the animal origin data from the individual lots of animal origin raw materials used, as provided by the raw material suppliers.

At times, suppliers notify BD Diagnostics - Diagnostic Systems of new and/or additional information they have received from their raw material suppliers that modifies the animal origin information for lots
