

DECLARATION To whom it may concern

We, the undersigned OXY'PHARM company, certify that our concept NOCOTECH has a proven disinfecting efficiency according to the norm NF T 72 281 (November 2014) and 17272 (April 2020).

These 2 norms are the only reference norms to test the efficiency of airborne disinfection systems. As such it is mandatory for an airborne disinfection system to prove compliance with it to be authorized in any French hospital and the same in many other European countries.

Nocolyse products are compatible and dedicated to Nocospray and Nocomax devices. Only the combination with Nocotech devices (Nocospray/Nocomax) together with Nocotech fluids (Nocolyse) can guarantee effectiveness and is tested in accordance with these norms.

No other fluid can be used on our devices and claim efficiency.

We remain at your disposal should you need any further information.
