

# CPU Benchmarks

Over 1,000,000 CPUs Benchmarked

## Price Performance Currently Available

This chart comparing the price performance of CPUs is made using thousands of [PerformanceTest](#) benchmark results and pricing pulled from various retailers. Benchmark results and pricing is reviewed daily. The chart below compares CPU value (performance / price) using the lowest price currently available from our affiliates. Higher results in the chart represent better value in terms of more performance per dollar. The top 150 CPUs (with a minimum of 2500 CPU Mark rating and released in the last five years) in terms of value are graphed for both single CPU systems (typically desktops) and multi-CPU systems (typically servers).
