

[illegible]

The image displays three architectural drawings of a window frame:

- Plan View (Left):** A top-down view of a rectangular window frame divided into six panes (two small at the top, four larger below). Dashed lines indicate the internal structure and the location of cross-sections A-A and B-B. Section A-A is marked on the left side, and section B-B is marked on the top and bottom edges.
- Cross-section A-A (Middle):** A vertical cross-section showing the frame's profile and the internal glazing unit. The frame is shown in a cross-hatched section, and the glazing unit is in the center.
- Cross-section B-B (Right):** A vertical cross-section showing the frame's profile and the internal glazing unit. The frame is shown in a cross-hatched section, and the glazing unit is in the center. Dimensions are indicated: a height of 10 units for the upper part and a height of 9 units for the lower part, both with a tolerance of ±2 units.

Technical drawing of a door with three transoms and a handle. The drawing includes a front elevation (A-A) and a cross-section (B-B).

Front Elevation (A-A): Shows the door's profile with three transoms. The total height is 151 mm. The distance between the transoms is 90 mm. The distance from the top transom to the top of the door is 45 mm. The handle is located on the right side.

Cross-section (B-B): Shows the internal structure of the door. The total width is 256 mm. The distance between the transoms is 200 mm. The distance from the top transom to the top of the door is 56 mm. The door is divided into two main sections: the left section (Lewa Skrzydło) and the right section (Prawe Skrzydło). The left section has a width of 105 mm and the right section has a width of 105 mm. The distance between the transoms is 200 mm. The door is shown with a handle and a lock mechanism.
