

The diagram shows a mechanical assembly within a rectangular frame. At the top left is a small square component labeled '1'. To its right is a long horizontal rectangular component labeled '2'. On the right side of the frame, there is a vertical assembly. It consists of a horizontal line at the top, a vertical line extending downwards, and another horizontal line at the bottom. A circular component labeled 'H1' is positioned on the vertical line, near the top. To the right of this vertical assembly is a vertical rectangular component with a U-shaped cutout at the top and a small circular feature near the bottom. Below the vertical assembly is a circular component labeled 'SL'. At the bottom center is a small rectangular component labeled '3' with two small circles on either side.
